PREVAGUARD™ products have an added layer of defense to protect the products against harmful microbes like bacteria, mold and mildew.

PrevaGuard™ * products contain an EPA registered antimicrobial agent that is molded directly into the structure of the product to guard it against stains, odors and deterioration for the item's entire useful lifetime.

Case Study

Client: A Financial Institution

Purpose: Single use pens for drive-thru banking

In response to the Coronavirus outbreak, a financial institution decided to provide BIC® PrevaGuard™ Clic Stic® (#CSANTI) single-use pens in all their locations and for drive-thru banking. This idea was intended to encourage customers and employees to take and keep a pen. By using an imprinted writing instrument, the financial institution would also benefit from increased brand impressions as people continued to use their pens outside their credit unions.
